COLORS

MOTTO[®]
Tiles & Bathware

Here we are offered a wide range of earthy tones and finish choices that match limestone tiles. Whichever hue or style of limestone tile you choose, the earthy charm will give your living space a modern yet classic touch.

It reflects the delicate, camel hue is the sphere hue of limestone flooring, so limestone tiles give a broad range of hues from dove hue limestone to the deepest black - it strikes the ideal blend of beauty, comfort, and durability, additionally, we introduce limestone silver hue which is the ease of care.

EXTREMELY RESILIENT AND RESILIENT TO SUSTAIN

limestone can be put in an array of configurations. You could discover various substances that will suit every corner of your living space. Limestone tiles give each space an eternal, rustic feel.

CHOOSE WISELY WITH A SUPERIOR SURFACE

Rustic Matt Tiles are a great option for high-humidity spaces like the kitchen or bathroom. Rustic Matt tiles are simple to keep clean with periodic mopping. Its rough texture lends it to slippery flooring and provides a build-in anti-skid feature.

AVAILABLE SIZES

800x1600mm | 60x250mm

Degree of Colour Change
HIGH SHADE & TEXTURE VARIATION
WITHIN EACH CARTON

Please note that there may be variations in the colours due to the random design concept, which is part of the unique beauty of this concept. We advise you to view the actual tiles before making a final decision on colours. It is important to keep a gap of 2 mm between tiles during installation.

As a Precautionary measure, we recommend conducting a dry mock installation of the tiles to ensure seamless final installation.

Keep in mind that size and shape variation are inherent properties of all vitrified tiles and should not be considered as a manufacturing defect.

Claims made post-installation will not be address.

We are honoured to be a part of your home and are committed to providing you with a lifetime of joy and happiness.

WORKING WITH THE VARIOUS VERSIONS OF TILES FINISH

CUTTING WITH DIAMOND DISCS

Our products can be cut using diamond discs fitted onto the hand-held electrical grinding machine. The speed of Disc rotation must be high (>10000 RPM) and should have a low feed rate (<1 in/min). It may be required to cool the disc with water. Recommended discs are the thin types generally used for cutting porcelain stoneware. The surface should be kept on a FLAT base while cutting without any gap underneath

DRILLING

You can use cutting discs fitted to battery-operated screwdrivers or angle grinders, electrical drills as an alternative.

INTERNAL CUT / L-SHAPED CUT

To get internal and L-shaped corners & to reduce the risk of breakage, round o the vertex of the internal corner using bits with a radius of at least 5mm. Then cut with diamond discs, be cautious to stop moving the cutting tool forward. To drill and cut using diamond discs, follow the instructions provided above.

When using these tools:

- Cool the point being drilled with water
- Don't put too much pressure and bear in mind the resistance of the type of laminated stoneware you are working on
- If you are using tungsten bits, start drilling at a low speed
- If you are using drills or screwdrivers, do not select hammering mode

EDGE-FINISHING

CLEANING & MAINTENCE

Our products are non porous (due to their high quality raw materials, stringent production parameters and state of the art technology), hence any dust or deposited waste cannot penetrate the surface.

For most cases only a damp cloth is sufficient for cleaning.

Regular cleaning highlights the aesthetic features of the surface and gives it exceptional shine.

For highly aggressive cleaning caused by some common food and substances follow the table below.

TYPE OF STAIN	CHEMICAL PRODUCT	EXAMPLE
Grease	Alkaline - Solvent	Detergent
Oil	Solvent	Ammonia, Baking Soda
Ink	Oxidant - Solvent	Alcohol, Liquid Bleach, NailPaint Remover
Rust	Acid	Hydrochloric Acid, Vinegar, Red Harpic
Lime	Acid	Descaling Reagent, Hydra Chloric Acid
Cement	Acid	Hydro Chloric Acid
Wine	Alkaline	Ammonia, Liquid Bleach
Coffee	Alkaline - Solvent	Ammonia, Liquid Bleach
Rubber	Solvent	Alcohol, Thinner
Plaster	Acid	Hydro Chloric Acid
Candle Wax	Solvent	Alcohol, Thinner
Iodine	Oxidant	Liquid Bleach
Blood	Oxidant	Liquid Bleach
Ice Cream	Alkaline	Liquid Bleach

Note: It is recommended that any kind of stain needs to get clean immediately / as soon as possible.
