Care Instructions for WC's With Special Finishes

- For everyday care, we recommend a soft, non-scratch sponge or cloth & clean water.
- If you wish to use a cleaning product, choose a standard all-purpose cleaner (diluted With water). Do not use aggressive or abrasive products.
- Warning: DO NOT use any cleaning products (Example Harpic) on seat cover surfaces.

Our Team is passionate about delivering Exceptional Customer Service. We have a dedicated Toll-Free Customer Helpline backed by Service-Centres across the country. For complete Warranty & Customer Care details, use the following link: www.aquantindia.com/customer-care/

To ensure your Aquant product performs & gives many years of use, please follow our cleaning & care recommendations carefully, as any damages resulting from poor maintenance are not covered under the warranty. Our care instructions are mentioned in our warranty card. You can also use the following link to view comprehensive maintenance guidelines: www.aquantindia.com/cleaning-maintenance-guide/

Care & Maintenance – An Overview

- To ensure your Aquant product performs & gives many years of use, please follow these recommendations carefully, as any damages resulting from poor maintenance are not covered under warranty.
- Most products can be cleaned with warm water, a mild soap & a clean, soft cloth.
- It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product. Avoid a vigorous cleaning action.
- Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish.
- If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps & openings & cause damage.
- Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, after shave & nail varnish can also cause damage, carefully clean these using the methods above.
- If a specialized cleaner is required, always follow the instructions provided on the cleaning product, this would include application & dosage.
- Always test the cleaning agent on an inconspicuous area before applying to the whole surface, do not allow the cleaner to remain on the product for an extended period. After cleaning, rinse thoroughly with clean water.
- We would not recommend the mixing of different cleaning agents. After cleaning, dry with a soft cloth.

Caring for Chrome, PVD & other Special Finishes

- The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not a rubbing action. Cleaning with a damp sponge & buff drying should keep your faucet looking beautiful.
- Most toilet cleaning products have high acidic content which can damage the finish; hence they should not be used to clean chrome finishes or PVD Finishes.
- If limescale has built up on your product do not attempt to chip this off as this could damage the protective lacquer & lead to further damage. Several applications of lemon juice (not a concentrate) or white vinegar, followed by a thorough rinsing with clean water will slowly help to remove it.

Caring for Artisanal Wash Basins & Special-Finish Ceramic Sanitaryware

- Do not place the product outdoors or in direct exposure to sun light.
- Stainless-steel may discolour if left in contact with salts or acids for extended periods.
- Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, after shave & nail varnish can also cause damage if not wiped up right away, this can allow the acids to react & eat away at the calcium carbonate in stone wash basins, creating permanent markings.
- Wherever Rose Gold/ Gold/ Silver/ Matt Finishes/ Marble Finishes or any other type of special finishes are used on ceramic products, use only warm water to clean & then dry with a soft cloth. Ensure that specialized cleaners are only applied to the specific area & do not meet other materials that could be affected by it.
- If you wish to use common cleaning products on Toilets with Rose Gold/ Gold/ Silver/ Matt Finishes, dilute the cleaning product with water. Do not allow the cleaning product to sit on the product, rinse immediately. Restrict use of cleaning product to only the inside of the toilet bowl & DO NOT allow the cleaning product to have contact with external surface finishes or the toilet seat. DO NOT use such cleaners on Wash Basins.
